

## Supplement to *Powys Checklist & Readers' Guide*, 2010

This leaflet is intended to remedy some of the gaps and errors in our *Checklist* and to bring it up to date to the end of 2009, so that we can avoid revising the whole book at the moment. It does not claim to be complete, and any other additions or corrections would be most welcome. This sheet has been printed so that it can be slipped into copies of the *Checklist* that we supply; it is also available on-line, at the address shown below.

We have not attempted to re-assess the guidance on pages 24 onwards apart from making additions and corrections.

Appropriate locations in the *Checklist* are given in square brackets for almost all of the entries.
