361 Days to come

Comparative in application.

What a week! Mye - g of
 I heard the French Mrs - until only about
 a day now Mye Albert came - then
 got the things together as we I could. At
 the last moment - I's shoes suddenly
 were thought of - dead completely forgotten
 them in my Joe thoughts about the other
 articles of apparel. They were very battered
 and the shoes broke - and we were
 putting in a new one when Albert came.
 I - they had one glass of milk in the
 morning and when would we have
 another one? O How will we get on? -
 It was very strange of the he kept - and said -
 It made me think of the red days ago.
 the seeds of his getting to for lectures -
 O I pray we may never be separated
 on long again. I felt so awful - I inquired
 what it would be by me. we were gone for me and
 fell into a deep abyss of jealousy and
 knowledge of how little I dared not get on
 without him. But I had time to think
 that it was justice towards his absence
 worse than it actually was - on this occasion
 when he is only the away until Friday -
 William came - and was much disappointed
 (I said) - gone. write him in credible
 complacency and dignity of suggestions he
 said - I didn't think of his thing. I like it
 run out - you know - and leads in talk with
 him - I felt the old Moor - in the Norway
 I'm falling once again. But how natural
 after all. Why one feels excited and even I
 might say gets the kind of Abraham.
 in duty and devotion - John the Evangelist
 a Holy Man - you don't have the Sun Man religious
 or even think Hardy man William from
 the grass and Albert - Lord even his the Will -
 EVEN - ~~some~~ only Carl Steitz and Mrs
 Hayes - but Mrs Hayes did toward the end
 I think. She Odele would not eat his supper and

will be where I get
two body
could all
might
